The project to reconstruct the fountain in the Kelleher Rose Garden is nearing completion. The new basin and fountain, maintenance shed and arbor have been installed. A final phase of the reconstruction will begin in early 2014 with the newly-created cherubs and planters and the restored marble wellhead that was formerly the centerpiece of the fountain. The Garden, in all its renewed splendor, will reopen to the public in the spring.

Announcing the Olmsted Tree Society

The Olmsted Tree Society was established in 2013 by the Emerald Necklace Conservancy’s Justine Mee Liff Fund Committee to provide financial support for a healthy and sustainable tree canopy throughout the Emerald Necklace. Generous sponsors and friends of the 10th Anniversary Party in the Park raised over $840,000 of the initial $1 million goal.

This fall, Kyle Zick Landscape Architecture is surveying and assessing over 7000 heritage, woodland and riparian trees in the Emerald Necklace and mapping the trees on GIS. In 2014 the plan for pruning, feeding and planting new trees will be implemented. The ongoing maintenance of trees in the Emerald Necklace is the long-term goal of the Society.

You can help! Adopt a heritage tree, plant a new tree or make a donation to support ongoing tree care and maintenance.

To join the Olmsted Tree Society or for more information, call Susan Knight at 617-522-2700 or visit emeraldneclace.org.
Thank You to Our Donors

Because of you…

We brought 500 volunteers into the parks to make the Necklace shine. More than 185 youth have held jobs working in the parks and connecting with nature. Heritage and woodland trees throughout the parks are being surveyed to inform a plan for the care of over 7000 trees.

THANK YOU!

You make the difference!
