

## **Exciting opportunities for Youth: Join us for webinars, workshops, and more in 2021!**

As part of our virtual Youth Leadership Program in 2021, the Emerald Necklace Conservancy is opening up select sessions to youth not enrolled in the program. These sessions will cover a range of topics, from Environmental Science to Environmental Justice to professional development and leadership, and are FREE and open to ALL youth between the ages of 14-20. All sessions will be held on Zoom.

**Pre-registration is required.**

*If you would like to register for multiple workshops at once, [use this link](#).*

Some sessions will be recorded and available for view for those who are interested. Contact [today@emeraldnecklace.org](mailto:today@emeraldnecklace.org) if you are interested in receiving a recording of a session, or if you have any questions.

**See our offerings and register below:**

***All times are EST***

# January

---

### Webinar: Urban Forestry

February 16<sup>th</sup>, 4:00-5:00pm

Jesse Scott, Boston Urban Connections Corridor, US Forest Service

Jesse will speak to urban forestry in Boston, as well as careers in Forest Management, and provide an introduction to the U.S. Forest Service.

#### **About Urban Connections:**

*Urban Connections (UC) is an urban outreach approach of the Forest Service (FS), Eastern Region based on the energy, commitment, and proven programs of urban community activists. It aims to draw together all three branches of the FS (State & Private Forestry; Research; and the National Forest System) to work with urban leaders and other agencies to gain a foothold in the cities, in order to connect citizens to the land. ## Webinar: Food Sovereignty

March 12<sup>th</sup>, 3:30-4:30pm

Jeanine Scheffert, Seed Saver's Exchange

Where does your food come from? What is Food Sovereignty? Join us to learn all about it! This presentation will introduce concepts of Food Sovereignty and Justice through the lens of agriculture and gardening, with a focus on how young leaders can get involved.

### **About Seed Saver's Exchange:**

*Seed Savers Exchange stewards America's culturally diverse and endangered garden and food crop legacy for present and future generations. They educate and connect people through collecting, regenerating, and sharing heirloom seeds, plants, and stories. [Learn more here](#)*

*Jeanine Scheffert, Education & Engagement Manager at Seed Savers Exchange, oversees the organization's education and engagement program. During the programming pivot of 2020, Scheffert created SSE's Resilience Gardens Project, which addressed food security through regional partnerships and offered vegetable gardening and seed saving education.*

## **Webinar: Green Gentrification**

**March 24<sup>th</sup>, 3:30-4:30pm**

**Isabelle Anguelovski, Barcelona Lab for Urban Environmental Justice and Sustainability**

Are you curious how green spaces impact urban life? Join us to learn about what green gentrification is and what it means in the City of Boston. This will be an introductory level webinar, no previous knowledge is required!

### **About the Barcelona Lab for Urban Environmental Justice and Sustainability:**

*BCNUEJ examines the structural and systemic drivers of social inequalities, exclusion, oppression, and neo-colonization in cities. Building on the theory and methods from urban planning, public policy, urban and environmental sociology, urban geography and public health, they analyze the extent to which urban plans and policy decisions contribute to more just, resilient, healthy, and sustainable cities. [Learn more here](#)*

***Isabelle** is the director of BCNUEJ, an ICREA Research Professor, a Senior Researcher and Principal Investigator at ICTA and former coordinator of the research group Healthy Cities and Environmental Justice at IMIM. She obtained a PhD in Urban Studies and Planning from MIT before returning to Europe in 2011 with a Marie Curie International Incoming Fellowship.*

### Workshop: Forest Bathing

April 6<sup>th</sup>, 3:30-6:00pm

Tam Wiley, Toadstool Walks

Join us for a guided virtual forest bathing session, followed by a question and answer and discussion portion. This session will focus on connecting with the world around you, and relaxing.

#### **About Forest Bathing:**

*Forest Bathing is part of a global effort to tend to the stressful conditions of living in modern industrialized civilization. Inspired by Shinrin-Yoku, a term coined in Japan in the 1980's, Forest Bathing is a prominent feature of preventative medicine and healing in Japan. Forest Bathing is about relaxing, unplugging and deepening our relationship with nature and each other. Unlike outdoor recreation such as hiking, this is a practice of slowing down as opposed to one of exertion. Unlike a nature walk, this is a practice of simply noticing and does not require any naturalist training or outdoor experience. The idea is to foster a relationship with the natural world by taking more time to wander, notice, and inquire. [Learn more here](#)*

*Tam Wiley is a certified Forest Therapy Guide, Trainer, and Mentor with the Association of Nature and Forest Therapy Guides and Programs. Tam's training includes an understanding of the scientific framework of Forest Therapy as well as an open style of unprescribed facilitation that supports the possibility for cultural repair, focusing on relationships of reciprocity.*

### Webinar: Trees of Boston

April 7<sup>th</sup>, 4:00-5:30pm

Speak For the Trees

Join us to learn some of the basics of Tree Identification, and why knowing what trees are in the city is important. Learn about Tree Inventory and how you can get involved!

#### **About Speak for the Trees:**

*SFTTs aims to improve the size and health of the urban forest in Boston, with a focus on under-served and under-canopied neighborhoods. SFTTs works with residents at the community level through tree plantings, inventory, and giveaways. [Learn more here](#)*

## Webinar: Introduction to Animal Tracking

April 28<sup>th</sup>, 4:00-5:00pm

Bob Metcalfe, New England Discovery

Tracking can be a very powerful way to learn about nature while seeing first hand some of the many connections between animals and their environment. Join us in learning to interpret the clues animals leave, giving signs of their presence.

### **About New England Discovery:**

*The goal of New England Discovery is to increase awareness and appreciation of wildlife and the natural world by helping people become more familiar with the wild animals that live around us, and how these animals interact with and depend on their environment. [Learn more here](#)*

**Bob Metcalfe** is a Naturalist and licensed guide.
